

## **Student Learning Outcomes**

**College:** Liberal Arts & Sciences

**Department:** Mathematics and Statistics

**Degree Program:** Bachelor of Science in Mathematics

---

- 1) Students will be able to communicate mathematical concepts in writing with clarity and precision.
- 2) Students will be able to communicate mathematical concepts orally with clarity and precision.
- 3) Students will demonstrate proficiency in mathematical skills and basic field knowledge.
- 4) Students will be able to present well-reasoned proofs of advanced results using core concepts and axioms.
