

PROGRAM SUMMARY

- **Credit Hours:** 120 hours
- **Concentrations:** Yes: Economics/Finance, Actuarial Science, Operations Research
- **Declaring the Major:** Minimum GPA of 2.0 required; no pre-requisite courses; change of major form accepted year-round; orientation/advising session required after declaration
- **Advising (For the Major):** Required on admission to the major, at the end of the fourth semester, and before the beginning of the senior year. Recommended more frequently. Assigned advisors available by appointment
- **Advising (For General Education):** By Mathematics Department advisors or by CLAS advising center
- **Minimum Grades/GPA:** GPA of at least 2.0 in all the MATH, STAT, and OPRS courses taken and GPA of at least 2.0 in all MATH, STAT, and OPRS courses at the 2000 level and above.
- **Teacher Licensure:** No.
- **Evening Classes Available:** No
- **Weekend Classes Available:** No
- **Other Information:** Departmental Honors, Internships, Co-ops
- **Contact(s):** Dr. Kim Harris, Undergraduate Coordinator for MATH, mkharris@uncc.edu ; Dr. Robert Anderson, MABU, rfanders@uncc.edu

PROGRAM REQUIREMENTS

Math for Business offers the BS degree with concentrations in Economics/Finance, Actuarial Science, or Operations Research. Students are required to choose a concentration. The BS degree is a *very structured* program. The program requires three semesters of calculus that must be taken in order. A grade of at least a C in each of the first two courses is required to progress to the next calculus course. Students are also required to take Linear Algebra, Differential Equations, Theory of Interest, Computer Exploration, and specific courses in Statistics and Operations Research. A course in computer programming and four additional upper-level MATH, OPRS, or STAT courses are also required as determined by the concentration choice. Students who take Calculus I in their freshman year and begin their major as sophomores can complete the degree on time **if they consult regularly with their advisors**. Students are required to complete either a formal minor or 18 credit hours of *related work* (in consultation with their advisor).

Areas	Credit Hours	Description
Pre-Major/Prerequisites	-	
Major	45	Required courses in the major will satisfy General Education requirements for mathematics and oral and written communication.
General Education <i>(not satisfied by other major requirements)</i>	31	The number of hours reflects the general education coursework required outside the major.
Related Work	21	ITCS 1212 + L The requirement for Related Work can be completed with a minor from another department or with 18 hours of approved courses with a common theme. Related work that is not an official minor must be approved by the student's advisor.
Foreign Language	0-8	Proficiency in a foreign language can be demonstrated by successful completion of FORL 1202, a placement test given by the Department of Languages and Culture Studies, or three years of high school courses in the SAME language.
Electives	15-23	As needed to complete 120 hours total.
Total Credit Hours	120
