

## **Student Learning Outcomes**

**College:** Liberal Arts & Sciences

**Department:** Chemistry

**Degree Program:** Bachelor of Arts in Chemistry

---

- 1) Make accurate quantitative chemical measurements in the laboratory.
- 2) Demonstrate the ability to apply knowledge of organic chemistry.
- 3) Demonstrate the ability to apply knowledge of physical chemistry.
- 4) Demonstrate the ability to apply knowledge of inorganic chemistry.
- 5) Demonstrate the ability to communicate scientific information effectively in oral format.
- 6) Demonstrate the ability to communicate scientific information effectively in writing.
